

SEIKO INSTRUMENTS AND NIPPON PRIMEX

Are you in need of a sub-assembly for your device?

Two rapidly expanding printer partners, Seiko Instruments and Nippon Primex, are collaborating in the United States to deliver high-quality sub-assemblies to various industries including Kiosk manufacturers, Gas Stations, ATMs, and Medical Device companies. By offering products that are both reliable and easy to integrate, Seiko and Nippon are working together to grow the US market with user-friendly self-service solutions. They form the perfect combination to meet all your customers' needs.

Why Seiko Instruments

- Reliability
- Excellent Total Cost of Ownership (TCO)
- Robust Functionality
- Intergration Support

Seiko Instruments U.S.A., Inc.

SEIKO

Moving ahead. Touching hearts.

PRINTER MECHANISMS AND SUB-ASSEMBLIES

Some solutions require more than just an off-the-shelf product. Trusting cheap overseas manufacturers for your critical product line can be risky. That's where Seiko Instruments, in collaboration with Primex, steps in to deliver cost-efficient, perfectly designed products. We provide products that enhance functionality, operability, and environmental tolerance to meet the needs of all system vendors.

KIOSK PRINTERS

Small footprint, reliable drop-in printers

Key features:

- Great Price
- Fast Print Speed - up to 150mm/sec
- Easy Paper Replacement
- Equipped with a Simple Presenter
- 88.6mm in Height with an Outer Diameter of 80mm - change to various design options

FACE MOUNT PRINTERS

Flexible paper options with easy-to-use operations

Key features:

- Great Price
- Flexible Arm Positions
- 10 Different Paper Positions
- Low Voltage
- Optional Bezel

TICKET PRINTERS

Dedicated to the use of fanfold paper

Key features:

- Great Price
- Paper Thickness up to 150 Micrometers
- Wide Operating Temperature Range - -20 to +60 degrees Celsius
- Integration Support
- Optional LED Bezel is Attachable

Components & Accesories Available with Mechanisms

SII (Seiko Instruments Inc.) is a company of the Seiko Group Corporation, is a pioneer in high-performance, high-reliability direct thermal printing solutions. SII has shipped over 50 million units worldwide and is a global market leader in direct thermal print mechanisms.

Nippon Primex Inc. was founded in 1979. By focusing on industrial mini printers based on the idea that "only companies that are needed by society will survive", NIPPON PRIMEX INC. has been evolving to the one and only solution provider who can satisfy all customers' needs for mini printers.
